

IJ136 - Recycled Natural White Matte Paper 140gsm

Product	Description	Recycled Natural White Matte Paper 140gsm is a medium weight, environmentally responsible inkjet paper manufactured from 100% recycled fibres. Its natural white shade provides a softer, warmer alternative to conventional bright-white papers, making it ideal for brands, designers and organisations wanting their printed materials to convey a more natural and sustainable appearance. Designed for water-based inkjet printers, the smooth matte surface produces crisp text, fine detail and attractive colour graphics with a low-glare finish. The heavier 140gsm construction provides greater opacity, rigidity and durability than lighter poster papers, making finished prints easier to handle and giving them a more substantial, premium feel.
	Compatibility	Dye and Pigment water-based inks
Application	Usage	Indoor posters and promotional graphics, Retail and point-of-sale displays, Presentations and exhibition graphics, Bespoke wrapping paper, Educational and public-information displays, Eco-conscious marketing campaigns, Proofing and general-purpose graphics.
	Indoor	See usage above
	Outdoor	Suitable for hot and cold lamination
Structure	Base material	100% recycled paper fibres
	Surface	Matte
Technical	Weight	140 gsm
	Thickness	180 microns
	Gloss (60°)	n/a
	Opacity	> 99%
	Optical Brighteners	None
	CIE Whiteness	> 90
	White Point	L: L: 91.0 a: 1.5 b: -2.2
Storage	Temperature	10-30°C
	Humidity	30-65% RH
Size	Roll (45m length)	610, 914, 1067mm (2" core)
Notes	Samples	A4 and 2m samples available on request.
