

IJ446 – WhiteBlocRoll™ Up Banner 290mic

Product	Description	A 290micron Matte, bright white composite banner with a standard inkjet receptive coating that provides rapid drying and good water resistance with pigment inks. Made from an opaque polyester film sandwiched between two bright white polypropylene outer layers. The polyester gives excellent flatness so it's perfect for roll up banner applications and the matte white back gives a clean professional look compared to the traditional grey back.
	Compatibility	Dye and Pigment water-based inks
Application	Usage	Advertising, Brand reinforcement Events, Exhibitions, Point-of-sale, Presentations, Retail promotion, Showrooms
	Indoor	Roll Up displays, posters, exhibition panels etc. The use of cold laminates is recommended to improve longevity
	Outdoor	Not recommended
	Lamination	Lamination recommended to extend working life of the banner
Structure	Base material	Multi-layered, Polypropylene + PET polyester + Polypropylene film with a microporous coating.
	Surface	Smooth matte finish
Technical	Weight	290 gsm
