

IJ463 – GreyBloc™ Polyester Roll Up Banner 200mic

Product	Description	A 180micron Matte, bright white polypropylene banner with a standard inkjet receptive coating that provides rapid drying and good water resistance with pigment inks (when using photo black). Has good lay-flat properties and with the traditional grey back is 99% opaque making it the perfect solution for roll up display applications.
	Compatibility	Dye and Pigment water-based inks
Application	Usage	Advertising, Brand reinforcement Events, Exhibitions, Point-of-sale, Presentations, Retail promotion, Showrooms. The use of lamination film is recommended to improve longevity.
	Indoor	Roll Up displays, posters, exhibition panels etc. The use of cold laminates is recommended to improve longevity
	Outdoor	When laminating for outdoor use it will be necessary to over laminate to prevent water ingress at the edges.
	Lamination	Hot or cold lamination recommended to extend the working life of the banner
Structure	Base material	Multi-layered, Polypropylene (white) + Polypropylene (dark grey)
	Surface	Smooth matte finish
Technical	Weight	150 gsm
	Thickness	200 micron
	Gloss (60°)	3
	Opacity	100%
	White Point	L: 93.4 a: 1.8 b: -7.0
Storage	Temperature	10-30°C
	Humidity	30-65% RH
Size	Roll (30m length)	914mm, 1067mm, 1270mm (3" core)
	Sheets	n/a
Notes	Samples	A4 and 2m samples available on request.
	Specification	This data sheet does not constitute a guaranteed specification and is given in good faith. Users of this product are encouraged to evaluate under the specific application and environmental conditions to which the product will be used.
