

TM211 – RECYCLED Natural White Satin Paper 200gsm

Product	Description	A 200 g/m² coated paper manufactured from 100% post-consumer recycled fibre. Its natural white shade provides excellent image quality, vivid colour reproduction and a light satin surface. Its very fast drying performance helps streamline print production, while its receptivity to hot and cold lamination allows printed graphics to be finished or protected as required. It is ideal for indoor applications and suitable for outdoor use if weather-protected. Acid-free and chlorine-free, TM211 offers a practical recycled alternative for indoor and weather-protected display applications without compromising visual impact.
	Compatibility	Eco-Solvent, Latex, Resin and UV Curable inks
Application	Indoor	Posters, Billboards, Photo-realistic advertising
	Outdoor	Suitable for use outdoors if contained in a weather-protected display. No wet-strength characteristics.
	Lamination	Lamination is recommended if exposed to severe weather conditions or to reduce ink fading over a longer time period
Structure	Base material	Paper with ink receptive coating
	Surface	Light satin finish
Technical	Weight	200 gsm
	Thickness	245 microns
	Gloss (85°)	15
	Opacity	99%
	CIE Whiteness	99
	White Point	L: 91.3 a: 1.6 b: -4.3
Storage	Temperature	10-30°C
	Humidity	30-65% RH
Size	Roll (50m length)	1067mm, 1372mm (3" core)
	Sheets	n/a
Notes	Samples	A4 and 2m samples available on request.
	Specification	This data sheet does not constitute a guaranteed specification and is given in good faith. Users of this product are encouraged to evaluate under the specific application and environmental conditions to which the product will be used.
