

TM212 – Blueback Semi Gloss Paper 120gsm

Product	Description	A 140gsm Semi-gloss, bright white paper with a multi-layered coating that provides rapid drying and a high degree of image protection. Designed for high production printing, the semi-gloss coating allows for heavier ink weights to provide an excellent colour gamut for a photo realistic finish. This billboard certified paper has a blueback to minimise show-through, is easy to paste, fold and hang with excellent wet strength.
	Compatibility	Solvent, Eco-Solvent, Latex and UV Curable inks
Application	Indoor	Suitable for indoor feature walls
	Outdoor	Designed specifically for Outdoor Posters, Billboards, Wallpaper
	Lamination	Lamination is recommended if exposed to severe weather conditions and to reduce ink fading over a longer time period
Structure	Method	Due to the advanced design of the ink receptive coating, less ink than usual is required to achieve the same colour gamut as less technical papers. For this reason the maximum ink weight should be set somewhere between 240% and 320%
	Base material	Paper with multi-layer water repellent coating
	Surface	Semi Gloss finish
Technical	Weight	120 gsm
	Thickness	140 microns
	Gloss (85°)	68
	Opacity	> 98%
	Optical Brighteners	Yes
	CIE Whiteness	tba
	White Point	L: 92.5 a: 0.8 b: -5.7
Storage	Temperature	10-30°C
	Humidity	30-65% RH
Size	Roll (61m length)	1372mm, 1600mm (3" core)
	Sheets	n/a
Notes	Samples	A4 and 2m samples available on request.
