

TM605 – Gloss Vinyl Grey Permanent Adhesive 100mic

Product	Description	A 100micron Gloss, white monomeric vinyl with an ink receptive coating and a permanent GREY water-based adhesive with thick paper release liner. The coating provides an excellent colour gamut with good durability. Ideal for indoor use or up to 4 years outdoor use and can be laminated for extra protection against sunlight and abrasion. Also suitable for use on interior floors with a smooth clean surface but must be used together with a slip rated lamination film. The adhesive allows for some repositioning on first application and the grey colouring provides additional covering capability.
