DATASHEET / BROCHURE

The reliable and cost-effective way to produce a wide range of textiles and promotional goods.

The SC-F6400 is a 44-inch 4-colour dye sublimation printer that has been developed for textile producers, promotional goods businesses and photographic studios. It features high capacity ink pouches that contain 45% more ink, which helps to reduce replacement time and waste. The PrecisionCore MicroTFP printhead increases output by up to 20%.*

Increased productivity

Increase output by up to 20%* with the new PrecisionCore MicroTFP printhead. User productivity is also improved thanks to the large touchscreen, which combined with an easy to access maintenance area, improves efficiency and helps to reduce printer downtime.

Reduced downtime

Nozzle Verification Technology reduces downtime by automatically detecting and adjusting clogged nozzles, to provide continuous and reliable productivity.

Easy to use ink packs

45% larger ink packs** help to reduce downtime and replacement frequency, while less packaging reduces waste. The ink packs only need to be shaken and inserted, which means there's no need to pour and stir, which can create mess.

The complete package

The SC-F6400 offers users a complete solution so everything works in harmony: from hardware and software, to printheads, ink and warranty.
